ENTERPRISE AI PLATFORM

AI ENVOY SPHERE

Build a competitive edge with a digital twin of your company and AI agent councils

Your infrastructure.
Your rules.
AI under control.

One platform to manage agents, access and policies.

AI Envoy Sphere streamlines AI agent deployment and maintenance.
Give teams access to AI while retaining control over access,
operating rules and resource use.

Managed application in Azure

Run the platform in the Azure environment
of your organization. Manage agents
within your own infrastructure.

Roles and permissions

Grant permissions for objects and actions.
Assign access to people and groups,
using Microsoft Entra ID.

Policies and action control

Configure content filters and tool policies.
Enable human approval of actions.
Define rules for agent behavior.

Monitoring and diagnostics

Track platform health and user activity.
Analyze Kubernetes logs, events and metrics.
Use Azure monitoring.

Oversight of agents and their actions

Dependency analysis	Agent links to users, data, tools and policies.
Usage auditing	Model and resource call metadata, without chat content.
Oversight and quality	Agent owners, risk classification, quality ratings and alerts.

Maintenance and costs under control

Export and restore environment settings. Roll out changes in stages.
Set token budgets and analyze agent and infrastructure costs.

Free discovery workshop

60–90 minutes: organizational needs, platform demo and initial MVP scope.
