ENTERPRISE AI PLATFORM

AI ENVOY SPHERE

Build a competitive edge with a digital twin of your company and AI agent councils

Company knowledge. Better decisions. AI under control.

One platform to build and manage AI agents.

AI Envoy Sphere combines knowledge from your company with the capabilities of AI. It supports employees in their daily work and gives the organisation control over access, quality of answers and costs.

Work faster with knowledge

Answers based on company documents, with citations and source links. Less time spent searching and analyzing.

Support for complex decisions

Councils of specialized agents combine expert perspectives, analyze documents and develop recommendations.

Data and access control

Deployed on your Azure infrastructure. Roles, permissions, policies and logs support secure AI access for employees.

Cost and quality visibility

Usage, cost and ROI reports, plus answer ratings, help measure outcomes and improve agent performance.

Practical use cases for your company

Management and finance	Report summaries and recommendations based on company data.
Procurement and bids	Tender document analysis and comparison of bids and risks.
HR and operations	Quick answers on procedures, instructions and policies.

From the first use case to organization-wide scale

No-code agent setup, integrations with company systems and web or Teams access make it easier to expand deployment.

Free discovery workshop

60–90 minutes: use cases, demo and initial MVP scope.
